

WQC Request Completeness Elements for DNR Waterways Permits

For All DNR Waterways Permits
The applicable federal permit application.
Any available water quality related materials that informed the development of the draft permit.
A description of the proposed activity, including the purpose of the proposed activity and the types of discharges that may result.
The specific location of any discharges that may result from the proposed activity.
Map or diagram of the proposed activity site, including proposed activity boundaries in relation to local streets, roads, and highways.
Description of current activity site conditions, including but not limited to relevant site data, photographs that represent current site conditions, or other relevant documentation.
Dates on which the proposed activity is planned to begin and end and, if known, the approximate dates when any discharges may commence.
*Documentation that a pre-filing meeting request was submitted to certifying authority in accordance with applicable submission procedures, unless the pre-filing meeting request requirement was waived.

*DNR Waterways waives all pre-filing meetings for water quality certifications as this process overlaps significantly with our waterway and wetland permitting process under chs. 30 and 281, Wis. Stats.
